RE: RECOMMENDATION LETTER FOR CYPRIAN NJOROGE

Dear Sir/Madam,

I am pleased to write this letter of recommendation for Cyprian Njoroge, who worked under my direct supervision during his Graduate trainee program at Nokia Solutions and Networks – Managed Services from May to August 2026, in the capacity of a Telecommunications Engineering Intern.

Throughout his internship, Cyprian was exposed to multiple departments within Nokia's Managed Services, gaining practical experience and a broad understanding of the telecommunications industry. These departments included: Network Operations Centre (NOC), Network Planning and Optimization, BSS/RAN, Packet Core and CS Core, Technical Support Group and Field Operations.

This rotation provided him with a well-rounded perspective of the industry, covering key functional areas from planning and design to implementation and core network management. Such comprehensive exposure is vital in developing a strong foundational understanding of end-to-end network operations.

Cyprian consistently demonstrated strong enthusiasm, a proactive attitude, and a commitment to learning. He was diligent, solution-oriented, and eager to contribute meaningfully to the tasks assigned to him. His willingness to take initiative and ability to quickly grasp technical concepts made him a valuable part of the team during his tenure. Based on his performance and professional conduct, I strongly recommend Cyprian for any future opportunities he may pursue. I am confident that he will be an asset to your organization.
