CYPRIAN NDUNG'U NJOROGE
SOFTWARE ENGINEER

Email: cpriannjoroge4@gmail.com | Phone: +254 796 791 767
LinkedIn: Cyprian Njoroge | Portfolio: DevNjoro

PROFESSIONAL SUMMARY

Mathematics with Information Technology graduate with practical experience in software engineering, AI-assisted development, data analytics, and telecommunications. Experienced in developing full-stack web applications using Laravel, PHP, JavaScript, MySQL, and REST APIs, with working knowledge of Python and basic React and Vue. Passionate about Artificial Intelligence and currently developing an AI agent to support telecommunications learning. Regularly use AI tools such as Codex, Devin, Claude, and Cursor for vibe coding, debugging, research, documentation, and prompt engineering. Strong analytical, problem-solving, and collaboration skills with a passion for building intelligent software that solves real-world business challenges.

TECHNICAL SKILLS

- **Programming Languages & Frameworks:** Python, PHP, JavaScript, SQL, HTML5, CSS3, Laravel, React (Basic), Vue (Basic), REST APIs
- **AI & Machine Learning:** Prompt Engineering, OpenAI API Integration, AI Agent Development, AI-assisted Software Development, LLM Workflows, AI Automation
- **Data & Analytics:** Data Collection, Data Cleaning & Validation, Quantitative Data Analysis, Data Visualization, Report Writing.
- **Tools & Technologies:** Python, R, STATA, VS code, Power BI, Docker (Basic), MySQL, Git & GitHub
- **Networking & Telecommunications:** Network Monitoring, Network Troubleshooting, Telecommunications Infrastructure, Network Performance Analysis
- **Soft Skills:** Problem-Solving, Communication, Time Management, analytical thinking.

PROFESSIONAL EXPERIENCE

Telecommunications Intern - Nokia MS Kenya (May 2026 to Present)

- Undergoing practical training in mobile telecommunications through mentorship and hands-on exposure.
- Learning network monitoring, performance analysis, troubleshooting concepts.
- Building knowledge of telecom infrastructure, network optimization, and operational best practices.
- Developing analytical and problem-solving skills by interpreting operational data and technical reports.

Research & Data Analysis Intern - AMREC AFRICA (May 2025 to October 2025)

- Collected field data using different software tools (Kobo and ODK).
- Cleaned, analyzed, and visualized datasets using Python, R, STATA, Excel, and Power BI.
- Developed dashboards and analytical reports to support research and evidence-based decision-making.
- Maintained data quality, documentation, and reporting standards.

Software Developer Attachee - AIMSOFT LTD (May 2024 to September 2024)

- Developed secure web applications using Laravel, PHP, JavaScript, and MySQL.
- Built REST APIs and implemented authentication and role-based access control.
- Participated in debugging, testing, deployment, and database management.
- Collaborated using Git and GitHub in an Agile development environment.

PROJECTS

Visitor Management System

Laravel | PHP | MySQL

- Developed a role-based visitor management system with secure authentication and authorization.
- Designed relational databases and implemented CRUD operations.
- Improved application security using RBAC.

AI Telecom Learning Agent (In Progress)

Python | LLMs | AI Agents

- Developing an AI agent that helps learners understand telecommunications concepts.
- Designing intelligent study workflows using prompt engineering and retrieval techniques.
- Integrating AI models to answer technical networking and telecommunications questions.

EDUCATION

Bachelor of Science Mathematics and Information Technology

Masinde Muliro University of Science and Technology

Graduated (Dec 2025).

CERTIFICATIONS

- certificate of completion - AMREC.LTD
